Art Unit: 1714

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4, 5, 7, 9, 14-16, 18-22, 24-27 and 29-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Gornowicz et al.

Gornowicz et al disclose curable compositions comprising thermoplastic resin and a curable polysiloxane in relative amounts such as claimed instantly. These compositions are taught as thermoplastic elastomers upon curing and suitable as wire insulation. Crosslinkers, catalysts and fillers such as recited in the rejected claims are taught. While the reference may not explicitly teach applicants' claimed reformable nature of the cured compositions, it is the position of the examiner that the compositions of the reference would inherently possess this property since the material/chemical limitations are met.

Claims 3, 6, 8, 10-13, 17, 23 and 28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward J. Cain whose telephone number is (571) 272-1118. The examiner can normally be reached on M-F from 10:00 to 6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan, can be reached on 571 272-1119. The fax phone
